The defendant reported for his scheduled office visit on October 6, 2014. He initially filled out his monthly report, laid it on the counter, and left the building without making contact with this officer. The defendant was contacted by phone and directed to return. During the office visit, a random urinalysis was collected. The sample returned presumptive positive for the presence of amphetamine. The defendant denied any use of controlled substances so the sample was sent for laboratory confirmation.

On October 9, 2014, the sample was confirmed positive for the presence of methamphetamine.

- 3      **Special Condition # 15:** You shall complete a mental health evaluation and follow any treatment recommendations of the evaluating professional which do not require forced or psychotropic medication and/or inpatient confinement absent further order of the Court. **Supporting Evidence:** Timothy Sadlier is considered to be in violation of his period of supervised release by failing to report for mental health treatment on October 9, 2014.

After the defendant failed to report for his scheduled treatment session, the provider attempted to contact the defendant by phone but he did not return the call. At this point, the defendant is not in compliance with his mental health treatment.
